2009 HISTORICAL CHART ARCHIVE

Remastered Yearbook Edition

Bluegrass - Contemporary - Country - Gospel - Southern Gospel

Weekly Charts + Year-End Top 100 Songs & Artists

Historical rankings, titles, artists, and label/company information are preserved from the surviving Radioactive Airplay source PDFs. Only the presentation has been rebuilt for readability, consistency, searchability, and archival efficiency.

About This Remastered Archive

The 2009 collection reflects a year of expansion and category changes. Alongside the long-running Southern Gospel and Bluegrass charts, the archive includes Contemporary, Country, Country Gospel, Bluegrass Gospel, Christian Country, and Classic Country charts at different points during the year.

Rather than retroactively standardizing those historical categories, this edition preserves the source chart names and the number of ranked positions actually published in each surviving PDF.

Collection element	Count
Weekly source charts included	248
Weekly ranking rows recovered	8,972
Year-end Top Songs	100
Year-end Top Artists	100
Source PDFs identified for 2009	253

Source Notes

1. The archive changes format during 2009. Early-year Country and Gospel-specific charts give way during the spring to separate Christian Country and Classic Country charts, while Contemporary becomes a regular weekly category.
2. The Southern Gospel source file RAATop100-030309.pdf contains 99 extractable ranked rows. Rank 54 is not recoverable as a normal row because the original source line is malformed; this edition does not invent the missing entry.
3. Several early 2009 charts changed size from week to week. The remastered edition preserves the number of ranked entries actually present in each source PDF rather than forcing every category into a single fixed chart size.

2009 Year-End Top 100 Songs

Original Radioactive Airplay year-end ranking - remastered presentation.

Rank	Song Title	Artist	Label / Company
